Josephus Kim L. Sarsonas

sephus.tech | (+63) 991 863 0201 | sarsonasjosephuskim@gmail.com | linkedin.com/in/josephus-kim-sarsonas
Cebu, Philippines

Education

Cebu Technological University – Main Campus Corner M.J. Cuenco Ave, R. Palma Street, Cebu City
BS Information Systems, GWA: 1.45 *2027*

Toledo City Science High School Ilihan Heights, Toledo City, Cebu, 6038 Philippines
High School Diploma, With Honors *Aug 2017 – May 2023*

- Graduated with Honors (Rank 12); Robotics Team member with 1st Place at the Division Science Fair 2019 and multiple placements (2nd, 4th, and 6th) in Regional Sumo Bot and Line Tracing competitions

Professional Experience

CKGrounds Oct 2026 – Present
Freelance Software Developer

- Developed a pickleball court booking and management system with email notifications and admin tools for rentals, courts, and bookings
- Built serverless functions with Next.js and TypeScript, used PostgreSQL for data storage, and deployed the application on Vercel

Edufied Pte May 2026 – Oct 2026
Full Stack Developer Trainee *Remote*

- Developed and maintained full-stack web applications across the SDLC, from requirements gathering and implementation to deployment and technical documentation
- Collaborated in daily Scrum meetings to troubleshoot issues, improve system functionality, evaluate software tools, and maintain application security
- Onboarded new interns by configuring development environments and guiding them through project setup and initial workflows

Projects

GDGOC Official Website ctu-gdgoc.vercel.app

- Developed and maintained the official Google Developer Groups on Campus website for Cebu Technological University – Main Campus, coordinating technical team contributions and site updates

CKGrounds Pickleball Booking System ckgrounds.vercel.app

- Built a pickleball court booking and management website with email notifications and admin tools for rentals, courts, and bookings
- Implemented QR code scanning that directs customers to a booking status tracker to follow reservation progress
- Developed serverless functions with Next.js and TypeScript, backed by PostgreSQL, and deployed on Vercel

OWBAP - One Window Bayanihan Assistance Program | *Laravel 13, React, PostgreSQL, Redis, S3*

- Led a four-person capstone team as lead developer and systems analyst, gathering requirements, analyzing Department of Migrant Workers workflows, and designing the inter-agency case-management architecture
- Built OFW case tracking with Laravel 13, React, Inertia.js, PostgreSQL, Redis, and S3; implemented OTP/MFA, RBAC, audit logging, rate limiting, and documentation, and coordinated DICT assessment and AWS Lightsail deployment

OEC Verify | *Next.js, TypeScript, Supabase, PostgreSQL, Tailwind CSS*

- Developed an efficient web-based Overseas Employment Certificate (OEC) verifier for the Department of Migrant Workers – Region 7, automating document verification with QR codes and email notifications; secured workflows with RBAC, Row-Level Security, and encrypted receipt tokens

Normalite EDGE – Everyday Guide to Excellence | *React, TypeScript, Node.js, Express, Prisma, PostgreSQL*

- Developed a web-based reviewer system for Cebu Normal University with admin, student, and reviewer roles; gamified student features and reviewer materials management with Excel template upload for automated batch upload of flashcard and mock-exam study resources; mock exams, flashcards, analytics, scheduling, and exam import/export to automate content management

LETReview – Licensure Exam Reviewer (PWA) | *TypeScript, Next.js, React, Firebase, Tailwind CSS*

- Developed a full-stack PWA for licensure exam preparation with quiz mode, flashcards, and gamification (streaks, achievements, virtual pets) to drive engagement
- Integrated Firebase authentication and real-time database, reaching 120+ users and 4,000+ visits within 14 days of launch

Portfolio Website | *Next.js, React, TypeScript, Tailwind CSS*

- Developed and deployed a responsive personal portfolio using React.js to showcase projects and technical skills

BNHS eDocument Request and Tracking System | *Laravel, Livewire, Tailwind, PostgreSQL, Cloudinary*

- Led a three-person team in analyzing Bato National High School's document-request workflow and delivering a web-based request and tracking system
- Built the system with Laravel and PostgreSQL, adding automated email notifications and request-status tracking

Technical Skills

Languages: HTML5, CSS3, PHP, TypeScript, Python

Frameworks: React, Laravel, Next.js, Livewire Express.js, TailwindCSS

Backend & APIs: Node.js, MVC, RESTful APIs, MySQL, PostgreSQL, NoSQL, Prisma ORM, JWT

Tools & Platforms: Git, Docker, NPM, Vercel, Render, Supabase, Cloudinary, Amazon Web Services, Google Cloud Platform

AI: Claude Code CLI, OpenCode CLI, Kiro CLI, OpenRouter, OmniRoute, 9route, AI Skills, Agentic AI, Antigravity

Developer Approach: Spec-driven development, Test-driven development, Requirements gathering, SDLC, Agile/Scrum, DevOps, CI/CD, Document-driven development

Certifications & Awards

AWS SBG Core Team Member Badge – Amazon Web Services, Jul 2026

Networking Basics – Cisco, May 2025

iLeap IP Course Certificate – IPOPHL, May 2024

Introduction to Python – Coursera, Apr 2024

Volunteering

Core Technical Officer Jul 2026 – Present

AWS Student Builder Group - Cebu Technological University - Main Campus *Cebu City, Philippines*

- Conduct technical sessions and hands-on workshops for students covering cloud computing, software development, and AWS technologies
- Collaborate with fellow officers to organize technical activities and help students develop practical skills through guided learning and projects

Chief Technical Officer Oct 2026 – Present

Google Developer Group - Cebu Technological University - Main Campus *Cebu City, Philippines*

- Promoted to Chief Technical Officer in October 2026 after serving as Web & Systems Lead Officer from August to September 2026
- Manage the technology department's software development projects and technical programs, delegating tasks and coordinating delivery with officers and team members
- Oversee technical planning for organization websites and systems and guide hackathon teams through development and technical problem-solving

Usher & Website Maintainer September 2026

AWS Community Day Cebu 2026 *University of the Philippines Cebu*

- Served as an usher, supporting attendee guidance and crowd control during the event
- Maintained the official event website by adding content, improving responsiveness, and updating it based on organizer feedback
